

TAO of Mayan Healing 2

- Part 2 will continue with the diagrams of the 7 rays of purpose energies that you automatically receive through your energetic vortexes on the meridian lines of you body.
- The Mayan Cosmological map showing the patterns in the cosmos of the spiritual Tzolk'in glyphs and the entrance points on the body for each glyph.
- This pattern is related to your understanding of Tonal Acupressure and why it clears and activates.

These energies are always being transmitted to your life force at your cellular level. The energies enter your human structure through the spin points of your body. If your meridians are still clogged with issues, the intended energies cannot pass through and flow freely. Clearing the chakras and meridians with Tonal Acupressure allows the energies of the Universe to flow through your physical body and keep you in a state of wellness.

Each of these rays send three sets of three energies in every moment. Since there are seven rays, with a total of nine energies each, you are constantly receiving 63 different energies to guide you through your Earth Walk in each moment. In addition to these 63 energies, you also receive spiritual growth energies from the 20 Tzolk'in glyphs each day and the 20 Haab glyphs each day, totaling 93 life-evolving energies supporting your totality of being.
